

Membership Programs and Benefits:

The NLCC works to provide a variety of networking and educational programs to help our members connect with one another and broaden their skill sets.

- Business After Hours
Each month the Chamber partners with a Chamber Member to host a free, networking event for members to build relationships, generate new contacts, and potential customers!
- Business on the Move Luncheons
Each luncheon focuses on a specific business-oriented topic to provide Chamber Members with information and tips to benefit their business.
- Meet, Greet & Network Breakfasts
The Chamber facilitates these free breakfast meetings to encourage networking amongst members. Members get the opportunity to speak about their business and share information.
